Delivers**SM

Included at the Ontario Water Works Association Annual Conference May 6 – 9, 2012, was a Water Quality Taste Test Competition. Water samples from across the province were submitted for the attending delegate's scrutiny to determine the facility that has produced the best tasting water.

It is with congratulatory kudos to the Region of Niagara and their dedicated staff that we are pleased to announce that the Rosehill Water Treatment Plant here in Fort Erie was judged as producing the Best Tasting Water in the Province.

We are committed to our continuous collaborative efforts with the Region in the treatment, distribution and supply of safe water.

The residents of Fort Erie remain as the beneficiaries of our combined efforts in ensuring a quality potable water supply to the tap.
